THE BLUE SPRUCE.

We are headquarters for this splendid variety, having specialized in them for years, and notwithstanding the unusual demand, have succeeded in building up a magnificent stock (without doubt the largest in the world). We offer three types of this wonderful variety—THE GRAFTED BLUE SPRUCE, THE COLORADO BLUE SPRUCE (selects) and THE COLORADO BLUE SPRUCE, nursery run, (blue and green form). When you order our Grafted Blue Spruce or the Colorado Blue Spruce selects you may rely upon receiving both in color and form “specimens” in every sense of the word. The “nursery run” sizes include both the blue and green type, and are fine for lining out. As a general thing our trees go 40 per cent blue. For price on seedlings, see page 3.
